COUNCILMAN AT-LARGE

November 16, 2018

To the Wells Fargo Executive Board and Administrative Team,

I want to convey my sincerest appreciation and congratulations for sponsoring The Made Man Foundation national tour, for the second straight year. To say that this year another success is quite the understatement.

I was honored to be a part of the mentorship and suit drive once again; this year as an alumnus, last year as an honoree; and have a role in the overall impact of this movement on so many young men – particularly young men of color. I also commend founder/CEO Ky Dele for conceiving of such a powerful and dynamic initiative.

Through your generosity and time, you are allowing Ky and her team to continue shaping the futures and reshape the narrative of the African American male in this country. Our youth have real examples to follow in the Made Men they encounter at schools like Murrell Dobbins CTE High School and countless others across the U.S. It is my hope that you have witnessed this impact firsthand, and will continue to be a supporter of not just Ky Dele's Made Man Foundation for years to come, but an advocate for "Made Men" everywhere!

Sincerely,

A handwritten signature in cursive script that reads "Derek S. Green".

Derek S. Green
